

EDUC 373

Inquiry-Based Learning

August 26-30 2019

course will include online preparatory work in August, along with an intensive week of full days on campus

This course provides students with the opportunity to examine a negotiated and inquiry-based curriculum. Topics will include the image of the child and educator, creating contexts for inquiry, materials, aesthetics, artistic languages, artistic ways of knowing, and principles of documentation. Emphasis will be on the role of the arts in projects and long term inquiries with children.
